A photograph of a modern, two-story house with a white facade and dark grey roof. The house features large glass windows and doors. In the foreground, there is a large wooden deck with a lounge chair and a dining table. The house is surrounded by greenery and trees.

A tailored experience

Comprehensive security solutions
for total confidence

Explore the various components of the rs Sirius® system, where each component offers unique properties and features to cater to varying security needs. Recognising that each access point, whether it's your front door or a top floor window, requires different levels of protection, the rs Sirius® range provides a tailored solution for your home or business. Embark on a journey of endless possibilities, customising your security to create your own constellation of security with rs Sirius®.

333 DOUBLE CYLINDER

A modular double cylinder offers key access from both sides.

Range of application: Front doors, cellar doors, apartment doors, etc.

- Can also be opened if necessary when the key is inserted from one side (333T).
 - Optional modular design
-

333 HALF CYLINDER

- Key access from one side
 - Range of application: key switch, lift, garage
-

333FRL / 333FRLH WITH FREE WHEEL FUNCTION

Double or half cylinder with freewheeling function for gear locks.

Range of application: escape doors, emergency exits, fire doors, mortise locks with panic function.

- With cylinders installed in mortise locks with panic function, e.g. in escape doors or emergency doors.
- This function ensures that the two cylinder cores of the cylinder can rotate freely when the key is removed.
- Can be incorporated into all DOM Masterkey systems.

333K6 DOUBLE CYLINDER WITH KNOB K6

A double cylinder with knob offers key access from one side and a knob option on the other side of the door.

- Can be incorporated into all DOM Masterkey systems.
- Optional: seawater-resistant version.

333KRU CLASSROOM CYLINDER

Classroom cylinder with KRL knob and slipping clutch.

Range of application: Public facilities, schools, kindergartens.

- With a classroom cylinder, the door can be opened from the inside with the knob.
 - Opens in any case, even if the cylinder is locked from the outside with an authorized key.
 - Can be incorporated into all DOM Masterkey systems.
-

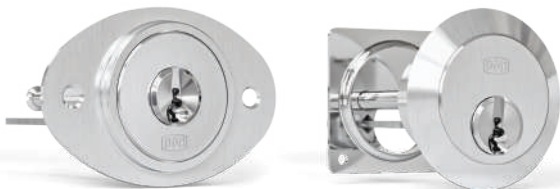

2222 SWISS ROUND CYLINDER

A Swiss round cylinder offers key access from both sides.

Range of application: Front doors, cellar doors, apartment doors, etc. specially for the Swiss market.

- If required also lockable if the key is inserted from one side (333T).
 - Can be incorporated into all DOM Masterkey systems.
 - Optional: seawater-resistant version.
-

555 TAILPIECE CYLINDER

The outer cylinder for screw-in locks is for use in wooden and metal doors.
Range of application: box locks, additional locks, garage door locks.

- Version for wooden doors 555P
- Version for metal doors 555R

SWITCH LOCK 393

A switch lock is a special cylinder with solder contacts on the back.
Area of application: Switching devices.

382 HEAVY CYLINDER CAM LOCK

The attached lever is actuated by the locking process and acts as a bolt.

- Range of application: letterboxes, lockers, safes, boxes, cloakroom lockers, inspection flaps, vending machines, etc.
- Different design variants (levers).

777G3 PADLOCK

Range of application: Grilles, doors, gates, cabinets, tool boxes, basement windows, sheds, switchgear, barriers, etc.

- Clear shackle height: 32 mm.
 - Housing width: 56 mm.
 - Classification according to EN 12320 Grade 3.
 - Standard: forced locking.
 - Optional: with self-locking.
 - Can be delivered with clear shackle height 60 mm or 120 mm on request.
 - Compatible with any Euro profile half cylinder.
-

777G5 HEAVY PADLOCK

Heavy-duty padlock for protection of larger valuables / objects or in the event of a high risk of theft.

Range of application: Grilles, doors, gates, cabinets, tool boxes, basement windows, sheds, switchgear, barriers, etc.

- A padlock with grade 5 security class according to EN 12320.
 - Compatible with any Euro profile half cylinder.
 - Shackle height: 32 mm.
 - Housing width: 56 mm
-

Sheer brilliance

Personalise the design
to suit you

With rs Sirius® you can customise your doors to match your interior style by choosing from a variety of metal colour options achieved through an electroplated dyeing process. These subtle yet striking coloured cylinders add a timeless elegance to your room. Choose the perfect finish, and not only will the fitting complement your doors, but they will also create a tactile connection that transcends mere functionality.

Experience the perfect synergy of security and aesthetics with rs Sirius® - a fusion that's truly out of this world.
